Dr. HANKE WOJCIECH
Professor of Occupational Medicine and Epidemiology
Deputy Director of the Polish Institute of
Occupational Medicine
Department of Environmental Epidemiology
Teresy 8 St.
91-348 Lodz
Poland

Dear Dr. Wojciech,

On behalf of the Executive Council of the Collegium Ramazzini and its President, Dr. Philip J. Landrigan, it is my great honor to inform you that you have been elected as a Fellow of the Collegium Ramazzini.

The Collegium Ramazzini is an international scientific society that examines critical issues in occupational and environmental medicine with a view towards action to prevent disease and promote health. The Collegium derives its name from Bernardino Ramazzini, the father of occupational medicine, a professor of the Universities of Modena and Padua in the late 1600s and early 1700s. Independent of commercial interests, the mission of the Collegium Ramazzini is to be a bridge between the world of scientific discovery and the social and political centers which must act on the discoveries of science to protect public health.

The Collegium is comprised of a select group of no more than 180 Fellows from about 40 different countries, each of clear personal and professional integrity, distinguished by their contributions to occupational and environmental health. The Collegium Ramazzini recognizes your scientific stature and authority and your commitment to public health.

The members of the Executive Council welcome you warmly to the organization and count on your important contributions to the work of the Collegium.

Yours sincerely,

Morando Soffritti
Secretary General
